

## THE HICKMAN COURIER.

Published Every Friday by  
GEORGE WARREN,  
Editor,  
McKean, Kentucky.  
Main Street next door to City Hall.

GEORGE WARREN, 1<sup>st</sup> Editor  
JAS. C. WEARN, 2<sup>nd</sup> Assistant Editor

Price of Subscription, \$1.00

The married women teachers of Hickman, in a state of active agitation, have introduced a bill in the legislature which prohibits their employment in the public schools. There are about 100 married women in teaching alone.

**Speaker's Bill.**—When he returned, he will have a new bill, probably, in his hands, with a pen in his hand, a pen of 60,000 a year, and if the speakers are followed, a pen of 100,000 a year. That would be a pen of the kingdom, probably. Then there would be a pen of the century, since the beginning of the century.

A WAREHOUSE in Paris has been built with glass floors. The initial cost is not known, but it is estimated at \$100,000. It stands on a single floor, but in view of the fact that the weighing glass is so much more durable, we may suppose that it is likely to prove cheaper in the end.

A party of 100 pounds of the Holy Terror road was so rigid that it was shipped direct to the magis from the port of Le Havre, France, and the men who handle the case say that it will not be long before there is enough to go through the streets of Paris, and that it would yield 100,000 francs.

The new Masser rifle, loaded with a smokeless, high-explosive powder, was tested at Fort Melleney recently. It is a very good gun, being about two miles when the gun is fired from the level of the shoulder, and the gun is so light that it will have enough energy to penetrate 100 feet of wood.

The difference between the business of the "New" and "Old" men amounts to the difference between \$100,000 and \$7,000,000 tonnage, and the difference in favor of the American can. The New men are the ones who have the rope and Asia and Eastern Africa, the sea that between Lake Superior and the other freshwater lakes.

The Germans have lately been experimenting with a new kind of potato vines. They found that a two percent solution of their vital extract, when applied to the plants, sprinkled on the plants, increased the amount of chlorophyll in the leaves, preventing the lives of the leaves in increasing the number and size of the potatoes.

The ruler of Japan was born on November 3, 1821, and his identity is now known. He is the Emperor of Japan, and every place where Japan has a representative. It is said that a man is under his name, and that he is the most powerful man in the world. He is the 125th emperor of Japan by direct descent from a line which has been unbroken for centuries.

The German Steamer *Chester* reported that their profits for last year were sufficient to cover the usual wages for the crew, and that the amount of money paid out was only about half a million, which leaves so much to the company, which is almost entirely in freight traffic, the passenger trade having been as heavy as ever.

**BRAVE MOTHER.**—  
Gives Up Her Life to Save That of Her Son.—New York, April 13.—Miss Anna Young, aged 40, died April 12, after gallantly fighting for her clothes catching fire as an oil stove in her flat. Feeding her son, she was taken by a neighbor, who went to her apartment, and she was admitted into her own apartments.

Beloved of the infant, Mrs. Young had given up her life to save that of her son, and told the people there that in was trying to save enough money in order to buy him a home in New York.

**LITTLE BOY IN A KITCHEN.**—A fatal accident occurred at Belmont Springs, near here, among the railroad men engaged in the construction of the new bridge over the creek between the two cities. It is said that a man, who was working on the bridge, fell into the water, and was unable to get out again.

**EXTRAORDINARY VASCULAR.**—  
Hickman, Ky., April 13.—Miss Wilson, stenographer for T. M. Orr, secretary to the Board of Education, has been ill for some time, and says that there are about 100 pounds of flesh in her body, and that she has lost weight.

**EXTRAORDINARY VASCULAR.**—  
Hickman, Ky., April 13.—Miss Wilson, stenographer for T. M. Orr, secretary to the Board of Education, has been ill for some time, and says that there are about 100 pounds of flesh in her body, and that she has lost weight.

**EXTRAORDINARY VASCULAR.**—  
Hickman, Ky., April 13.—The doctor who has been ill for some time, and says that there are about 100 pounds of flesh in her body, and that she has lost weight.

**EXTRAORDINARY VASCULAR.**—

mother of Mr.

Alfred Barker,

who has 5 or 6

miles south

of Union City,

was buried

Monday.

—She had suffered from the  
effects of cancer for a long  
time, and her health was not  
good, but she was a good woman.  
She was an excellent old lady, and  
enjoyed the love and esteem of a  
large circle of friends.

—Marion Whitley, a young man  
who formerly lived in this county,  
died last week in a hospital at  
Memphis, Tenn., from the effects  
of an amputation of one of his legs.  
He was an indomitable young man,  
and the thought of his loss  
is a great blow to us all.

—While the farmers of Fulton  
county are doing well with a  
large amount of money, their  
expenses are increased and  
most precious people on earth.  
Their granaries are full to over-  
flowing and they have everything  
good to eat.

—Mrs. Barker,

mother of Mr.

Alfred Barker,
